

New Mailboxes Coming For Everyone!

If you drive down our streets here at Grant Station, the one thing that really brings down the look of our otherwise constantly improving neighborhood are the mailboxes. Some falling apart some leaning 30% or more at different heights with different shapes. Really brings down the neighborhood. **The Board of Directors voted at our last meeting to replace each and every mailbox in the neighborhood with brand new ones!** As you can see by the above picture most will be double and shared with your neighbor and a very few will be singles, due to the odd number on a given street. Your old mailbox will be removed and disposed of, unless you salvage it yourself. We are hoping for a mid-September switch out of all mailboxes.

See the placement of double and Single Mailboxes on the reverse side. Note again that your mailboxes will be removed and disposed of, unless you remove and store it yourself.
